

Comments from The Norwegian Scientific Committee for Food and Environment (VKM) on the stacked maize event Bt11 x MIR162 x MIR604 x MON 89034 x 5307 x GA21 (Application EFSA-GMO-DE-2018-149)

Food and feed safety assessment

VKM welcomes information on herbicide residue levels and their relevant metabolites in applications for herbicide tolerant GM-crops. Data on residue levels of glyphosate and glufosinate-ammonium, including relevant metabolites, in plant material from field studies would support the assessment of food, feed and environmental safety.
